- Service speed downgrades are not available during the minimum term.
- Upgrades to higher speeds during the minimum term are available.
- Withdrawal Charges: services withdrawn before order completion but after order acceptance will incur a service withdrawal charge to be quoted at time of withdrawal

CRITICAL INFORMATION SUMMARY

V Fibre Plans – *UNLIMITED 36 Months*

EARLY TERMINATION & DISCONNECTION TIMEFRAMES

If you choose to cancel your service or it is disconnected for any reason within the contract term you will be charged an early termination fee (ETF). This will be calculated as the monthly access fee, plus any monthly hardware rental fees, multiplied by the months remaining in the minimum contract term.

You must provide at least 30 days' written notice to us to disconnect a service.

BUILD CHARGES

Your order may be subject to an additional charge for works should there be insufficient infrastructure in place. As this can only be determined at point of placing the order, your consent will be obtained before the order proceeds. If Power Networkx determine a build charge is applicable before the order is accepted by the carrier, you may withdraw the order without a withdrawal fee applying.

If an infrastructure short-fall is identified after the order is accepted by the carrier and the carrier has commenced works, such as but not limited to, site surveying, build-design and other works, a withdrawal fee will be quoted if the customer wishes to withdraw the

OTHER INFORMATION

order. If proceeding, the works required may be identified by the carrier as contestable (customer can use a third-party licenced technician), or non-contestable (the works can only be completed by the carrier's licenced technicians).

CONNECTION TIMEFRAMES

Typical installations take 6 to 8 weeks to complete, depending on the level of work required. Exact timeframes can vary due to and not limited to unforeseen issues with civil and on-site work, building management approval, site access, and force majeure events. Updates and timeframes will be provided to you throughout the progress of your order. Increased lead times may apply for non-standard installations.

ETHERNET SPEEDS

Actual speeds you will receive may vary due to a number of factors such as your access class, the network connecting the exchange, your equipment, software and internet traffic and fibre transmission overheads. For Access Class (Premium): Whilst we classify these speeds as being guaranteed to the Network Terminating Device (NTD), the above factors must be considered.

EQUIPMENT

You may use your own router provided it is compatible with our service; however this means that you will be responsible for the configuration and management of the router. Ask us for information on approved routers. Alternatively you may purchase your router from us. Please check with Power Networkx for the latest pricing.

BILLING

We will bill you in advance for the minimum monthly charge and features and in arrears for calls (if applicable). Your first bill will include charges for part of the month from when you took up your plan until the end of that billing cycle, as well as the minimum monthly charge in advance for the next billing cycle.

COMPLAINTS

If you have any concerns or complaints, you can access our complaint resolution process via our website. You can also contact the Telecommunications Industry Ombudsman on 1800 062 058 or submit an enquiry at www.tio.com.au.
