PRICING & PROMOTIONAL PRICING

Pricing in this Critical Information Summary is inclusive of GST and does not take into account any promotional discounts or custom pricing.

SETUP FEE

You may choose to self-install the service at no additional cost, or select either Indoor or Outdoor Professional Installation, which may incur an additional outright cost as outlined in the table above, depending on the minimum term you select.

The listed Setup Fees for Professional Installation include standard setup within Business Hours (9AM - 5PM, Mon to Fri, excluding public holidays). Complex, non-standard or otherwise custom setup is POA.

EARLY TERMINATION

If your service is disconnected for any reason within the contract term, you will be charged an Early Termination Fee (ETF) comprised of your minimum monthly commitment, multiplied by the months remaining in your contract. You must provide 30 days written notice to us to disconnect a service.

CRITICAL INFORMATION SUMMARY

5G Business Fixed Wireless Plans – **UNLIMITED**

RELOCATION & WITHDRAWAL FEES

- Relocations while in contract will incur a relocation fee which varies depending on the Installation Option you select at the new site, plus any complex, non-standard or otherwise custom setup charges as applicable to the new site:
 - **Self-Installation: \$0**
 - **Professional Installation - Indoor: \$450**
 - **Professional Installation - Outdoor: \$1,100**
- The service will be recontracted at the new site at the same minimum term length.
- Please note: Relocation of your service is subject to the standard Availability terms listed on this Critical Information Summary. If you relocate and the service is not available at your new address, Early Termination Fees may apply in-line with your agreement.
- Services withdrawn before order completion but after order acceptance will incur a service withdrawal charge to be quoted at time of withdrawal. This may be the full Early Termination Fee, depending on how far the order has progressed.
- If any equipment installed is required to be removed by Law, or by the request of any person with authority to request such removal (including any occupier, End User, landlord, building manager, body corporate or strata manager), then we may charge you the reasonable costs of removing such equipment in addition to any applicable withdrawal charges as outlined above.

OTHER INFORMATION

SITE ACCESS & BUILDING MANAGEMENT APPROVAL

Should you select a Professional Installation option, we will provide you with an installation briefing describing the location of the proposed installation of the Fixed Wireless Gateway, which you may use to request any permissions and approvals for, or to confirm the legal compliance of, the proposed installation of the Fixed Wireless Gateway. If building management approval is required, installation may be delayed.

CONNECTION TIMEFRAMES

Typical installations take 7 business days to complete. Timeframes can depend on the installation option selected, building management approval and site access.

FAULTS

We may charge an Incorrect Callout Fee or Fee for Service where a fault is lodged and: i) we or a supplier visit your premises and find no fault with the service. ii) we or a supplier visit your premises and a fault is deemed to be with your own network or equipment. iii) the technician cannot physically access your premises at the arranged time.

ETHERNET SPEEDS

Actual speeds you will receive may vary due to a number of factors such as your access class, the network connecting the exchange, your equipment, software and internet traffic and fibre transmission overheads. For Access Class (Premium): Whilst we classify these speeds as being guaranteed to the Network Terminating Device (NTD), the above factors must be considered.

EQUIPMENT

We will provide the equipment required to connect the service to your premises. This will include a Fixed Wireless Gateway to facilitate handoff from the Fixed Wireless network via Ethernet port.

You will need your own router with an available Ethernet WAN port to connect your own internal network to the equipment we provide.

Power Networkx can provide compatible routers at the competitive rates, contact us for a quote.

SERVICE SPEEDS

Business Wireless Ethernet plans are capable of achieving speeds up to 250Mbps, however this is delivered on a best-effort basis only. Speeds can be affected, within reason, by many factors such as, but not limited to: network utilisation and availability, your equipment; software and internet traffic; local conditions, including environmental factors; or any obstructions between the Fixed Wireless Gateway and the cell tower.

ACCEPTABLE USAGE

In addition to the standard terms outlined in our Acceptable Usage policy available on our website, this service may not be used for the following purposes:

- As backhaul, uplink or an aggregation link; for example, connecting multiple sites, for public or community WiFi infrastructure, or for multiple residential broadband services, such as within an apartment building or any other type of multi-dwelling unit,
- To carry applications which generate constant network traffic including permanently streaming Closed Circuit Television Cameras (CCTV) devices.

BILLING

We will bill you in advance for the minimum monthly charge and features and in arrears for calls (if applicable). Your first bill will include charges for part of the month from when you took up your plan until the end of that billing cycle, as well as the minimum monthly charge in advance for the next billing cycle.

COMPLAINTS

If you have any concerns or complaints, you can access our complaint resolution process via our website. You can also contact the Telecommunications Industry Ombudsman on 1800 062 058 or submit an enquiry at www.tio.com.au.
