THE FINE PRINT:

THE FINE PRINT: ¹ Not available in all areas or to all customers. ² Power Network will provide you with a fibre internet connection, delivered over the Vocus fibre network. ³ Power Network, via Vocus, will provide a Network Terminating Device (NTD) used to facilitate connection to the network. The cabling that is required in your premises beyond the Network Boundary Point is your cost and responsibility. ⁴ You may use your own router provided it is compatible with our service; however this means that you will be responsible for the configuration and management of the router. Alternatively you may purchase your router from us. ⁵ You must obtain the consent of the property owner to have the Fibre installation performed. ⁶ Speeds are guaranteed to the network boundary point. Speeds can be affected, within reason, by many factors such as, but not limited to; network utilisation, your equipment, software and internet traffic, and fibre transmission overheads. ⁷ Typical installations take 6 to 8 weeks to complete, depending on the level of work required.
