DATA BANK

How it works

Unused monthly data carries into the next month, up to a maximum banked balance of **1,000GB**. Data that would take you over the maximum is forfeited. Banked data cannot be gifted or transferred to another service.

When banked data is lost

- Downgrading to a smaller plan, or moving to a plan without data banking
- Cancelling, porting away, or termination in error
- Suspended services keep banked data but don't accumulate more while suspended

INFORMATION ABOUT PRICING

When your monthly and banked data are used up, a **2GB Auto Bolt-on (\$10)** is added automatically each time you use another 2GB. There is no limit on the number of Auto Bolt-ons per bill cycle.

Bolt-ons expire at the end of the bill cycle.

Bolt-on and other charges	Price
2GB Auto Bolt-on (per 2GB block)	\$10
SIM card swap	\$25

BILLING AND OTHER INFORMATION

Billing

Charges and inclusions are metered from the 28th to the 27th of each month. We bill the monthly charge in advance and usage in arrears. Your first bill is prorated for the days remaining in the cycle.

Plan changes and cancelling

Plan changes are prorated — the old and new plan charges apply for the days each is active in the bill cycle. Cancellations and port-aways are prorated — you are charged only for the days the service is active in the bill cycle.

Promotional pricing

Pricing in this Critical Information Summary does not take into account any promotional discounts or custom pricing. Promotional pricing on offer may be revoked at any time.

Fair use

The service must not be used for traffic aggregation or refiling, automated usage generated by software or hardware, or in any way that breaches Telstra's network terms — such use will result in suspension. Our [Fair Use Policy](#) and [Acceptable Use Policy](#) apply. Track usage at myaccount.powernetworx.com.au.
